

ANDOL ABHILASH

SAP BTP Developer – CAPM | RAP | SBPA | Build Apps | AI Core

Work experience:

Developed and deployed applications using SAP Cloud Application Programming Model (CAP) on SAP Business Technology Platform (BTP), built AI-driven automation solutions including bots with SAP Build Process Automation (SBPA), workflows, Document Information Extraction, and Generative AI to streamline processes and minimize manual effort, implemented secure integration through BTP services such as Destinations, Authorization, and Authentication across CAP and SAP Build Apps, and gained hands-on expertise with SAP AI Launchpad for managing AI models.

EMPLOYMENT HISTORY:

Deloitte (Jul 2024 - Present):

- **SAP Build Apps & SBPA Expertise:** Designed and developed SAP Build Apps and SBPA bots to automate business processes, integrating applications with SBPA using Destinations, Actions, Decisions, and Document Management Service, triggers. Provided strategic consulting to business teams through weekly sessions, improving application usability and ensuring alignment with organizational goals.
- **SAP CAPM & Build Code Expertise:** Developed end-to-end enterprise applications leveraging SAP Cloud Application Programming Model (CAP) with Fiori, UI5, and Node.js, incorporating XSUAA for secure authentication and authorization. Designed robust data models, services, and custom UI components using XML views, fragments, controllers, and annotations. Implemented custom handlers, managed deployments, and maintained code repositories via Git. Utilized SAP Business Application Studio (BAS), VS Code, and GitHub Copilot for efficient development and delivery of scalable solutions.
- **SAP AI Core & Launchpad Expertise:** Leveraged SAP AI Launchpad and GenAI Hub to design and optimize prompts using the Prompt Editor, grounding techniques, and Orchestrator for intelligent automation. Possess knowledge of Retrieval-Augmented Generation (RAG) implementation and hands-on experience in developing AI-driven solutions with Python for advanced business scenarios.

Cognizant (Sept 2021 – Jul 2024):

- **SAP Brownfield conversion (BCX):** I was the part of migration team, performing the ABAP Test Cockpit (ATC) Checks to ensure the remediation and retrofitting of ABAP code for S/4 HANA Migration.
- **Manager Insights Dashboard (SAP Build Apps + HANA):** Built a dashboard enabling CRUD operations on HANA data via SAP Build Apps, empowering managers with real-time insights.
- **Sales Order Automation (SAP DOX + BPA):** Automated sales order creation from PDFs using SAP Document Information Extraction, workflows and BPA, reducing manual data entry and improving accuracy
- **ABAP Code Remediation with UiPath & GitHub Copilot:** Automated ATC check failure fixes using UiPath Re-Framework and GitHub Copilot, python, reducing debugging time.

CERTIFICATIONS

- SAP Certified – SAP Generative AI Developer
- Certified Citizen Developer Associate - SAP Build Low-code/No-code Applications and Automations
- SAP Certified Associate - Back - End Developer - ABAP Cloud

EDUCATION

- **CVR College of Engineering Hyderabad**
Degree Name – Master of Technology (2019-2021)
DGPA – 8.7

PROFILE

I am a highly skilled SAP BTP Application Developer with 4+ years of experience
